## **ASHHRA Launches Online Learning Portal**

**CHICAGO – January 2018** – The American Society for Healthcare Human Resources Administration (ASHHRA), a professional membership group of the American Hospital Association (AHA), recently launched the ASHHRA Learning Portal, an online learning platform that offers on-demand educational content specific to the health care human resources profession.

The ASHHRA Learning Portal includes online courses and select sessions recorded from past annual conferences. All educational content adheres to the five competencies of the ASHHRA HR Leader Model – Community Citizenship, HR Delivery, Healthcare Business Knowledge, Personal Leadership and People Strategies. Programs can be filtered by competency, category or tags. Many programs include renewal credit toward recertification and a certificate is automatically provided upon completion of the program evaluation.

According to ASHHRA Executive Director Catherine Carruth, “We are excited to launch the new ASHHRA Learning Portal as we continue to bring new and valuable tools and resources to ASHHRA members and the health care HR field. The platform is easy to navigate and educational content is available on-demand, so you can access it when it’s most convenient for you.”

ASHHRA members can access learning programs at significantly discounted pricing and all educational activity is archived to each individual’s transcript. For more information or to access the ASHHRA Learning Portal, visit [www.ashhra.org/learning](http://www.ashhra.org/learning).
